

Sharps Ridge Trail Signage Installation

Description: After several years and many volunteer hours from the Appalachian Mountain Bike Club, Sharps Ridge Memorial Park now offers 5.25 miles of natural surface trails, including two new neighborhood trailheads located at Dill Street and Hanover Street. To assist trail users on these new trail facilities, the Parks and Recreation Department has installed directional trail signage. The Public Service Department provided labor and materials for sign posts. AMBC directed sign locations, guided in sign language and installed the signs. Sign design was performed by Robin Easter Design with assistance from Legacy Parks. Sign design and printing totaled approximately \$3,000.

Location: Sharps Ridge Memorial Park

Contractor: City of Knoxville Public Service Department

Completion Date: March 2016
